MONKEY SEE, MONKEY DO

WORDS: ANELITHA HITI | ILLUSTRATION: SHUTTERSTOCK

These three monkeys are going head-to-head to see who can collect the most fruit from their area. But there's a twist: each fruit counts for points. Add up how many points each monkey has and name the winner. Ready, set... go!

There's a point for each fruit:

= 1   = 2

= 3   = 4
